## **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Claims 17-24 are allowable over the prior art, because, although the closest prior art, Stylli et al. (US 5985214), does disclose a storage module / container comprising (as shown in Figure 3) robotic arm 150, conveyor belt 170, shelves 160 and openings in the side walls (walls configured for reciprocal rolling engagement by means of rollers and rails / guides also being well known in the art - see, for example, Col. 1, lines 12-20 of Roth et al., US 250730), the prior art, however, fails to teach, or fairly suggest a modular structure comprising a plurality of such containers being slidably connected to one another, by a first guide and a first roller on one of the side walls of each container, and a second guide and a second roller on the other of the side walls of each container, the first guide and the first roller on one of the containers being in respective reciprocal rolling engagement with the second roller and the second guide on an adjacent one of the containers, as recited in the instant claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
